

# **Online Shopping System**

**by: Michael Angelo A. Ochengco (BSIT - 1A)**

## **Changes to the Project:**

- Automatic setting of the directory path of the text files with the use of the `getcwd()` function to ensure that there are no errors when reading the text files.
- The project theme changed from “RESTAURANT” to “ONLINE SHOPPING SYSTEM”
- The store name changed from “MIKEY’s FLAVOR FUSION” to “ShopSmart” to accommodate the change in the project theme.
- The names of classes, functions, & variables in the code were changed to fit the new project theme.
- Minor design changes

## **Notes to read before running the program:**

- Admin Mode Account Information: Username - “admin”, Password - “admin”
- Customer Mode Sample Account Information: Username - “boof”, Password - “Boofinator7”
- The text files in the “Text Files” already contain some information for the Sample Account created.
